INDUSTRY	Developer Student Club Member. DSC, University of Granada	2019–2020
	Tech community to publicize open source projects and solve local problems.	
	Software Intern. Google Summer of Code	May 2019–August 2019
	Developed a tool to generate the doc page of Raku Language.	
	Math Organiser. Mathematical Student Association	2016–2019
	Organised several mathematical events , conferences and workshops.	
SKILLS	I have basic experience in building webapps based on React.js, HTML, CSS. I'm also worked a lot with Typescript and Javascript. I am more interested in backend development, where I have worked with Node.js, MySQL, Oracle and MongoDB (and Deno, the new NodeJS). I also have a very good understanding of Git, Github and Linux. I have made some minor projects in C++ and Python. I try to follow the principles described in Clean Code and Clean Architecture and TDD. From time to time, I like to write posts about what I do in DEV.to .	
ACADEMIA	BSc Mathematics. Current GPA 6.7/10. University of Granada	2016–now
	BSc Computer Science. Current GPA 6.7/10. University of Granada	2016–now
INTERESTS	Speaker at esLibre and Jasyp2019	
	Blogger at DEV.to .
